MEMBERSHIP INFORMATION

Join **Blockchain for Sustainable Development (B4SD)** to advance technology driven solutions to United Nations (UN) Sustainable Development Goal (SDG) attainment. To realize our vision, we are building a global network with a focus on advancing initiatives and projects aligned with the SDGs. We Conduct cross-disciplinary education and capacity building activities to strengthen the foundational knowledge platform at the intersection of blockchain and sustainable development. We catalyze Social Impact and Environmental Impact.

Fee: Free (suggested donation of \$10/month or \$100/year). The application for membership is simple and takes less than 5 minutes.

The **Benefits** of becoming a B4SD Member include:

- Access to the B4SD network of experts, thought leaders, businesses, and stakeholders.
- Promotional opportunities on the B4SD website and at B4SD events.
- Access to the most up to date resources available on Blockchain and the SDGs.
- Opportunities to contribute to and access the B4SD Membership bulletin.
- First-look news updates on relevant issues of blockchain and sustainable development.
- Opportunities to contribute to B4SD educational materials, reports, and publications.
- Access to submit projects to our incubator or accelerator programs.
- Engagement with traditional and online media through the B4SD's media network.
- Participation in our annual conference.
- Engagement with our thematic and working groups.
- Pursuit of joint and project specific fundraising opportunities through B4SD network.
- Opportunities to become involved with initiatives of B4SD and incubated startups.
- Participation in local or national chapters of B4SD (or build your own).

Access to B4SD Membership is open to universities, experts, professionals, businesses, thought leaders, research centers, organizations, students, civil society groups, individual stakeholders, governmental institutions and agencies, and knowledge institutions with a strong track record or directed desire to advance the use of blockchain and emerging technologies for Global Goal. B4SD is committed to providing members will all the resources necessary to understand and implement directed social and environmental impact initiatives.
